### 1. ISO

The International Organization for Standardization (Organisation internationale de normalization), widely known as ISO, is an international-standard-setting body composed of representatives from various national standards organizations. Founded on 23 February 1947, the organization promulgates worldwide proprietary industrial and commercial standards. It is headquartered in Geneva, Switzerland.

### 2. CE mark

The CE marking (also known as CE mark) is a mandatory conformity mark on many products placed on the single market in the European Economic Area (EEA). The CE marking does not certify that a product has met EU consumer safety, health or environmental requirements.
